Select a product from the menu:

If you are looking for the **SurvCE 1.50.001** update or the latest version of **Carlson X-Port**, please enter your SurvCE serial number and press the download button. (Be sure to enter the dashes.) "What's New in 1.50" document coming soon!

Please register below before downloading any files.

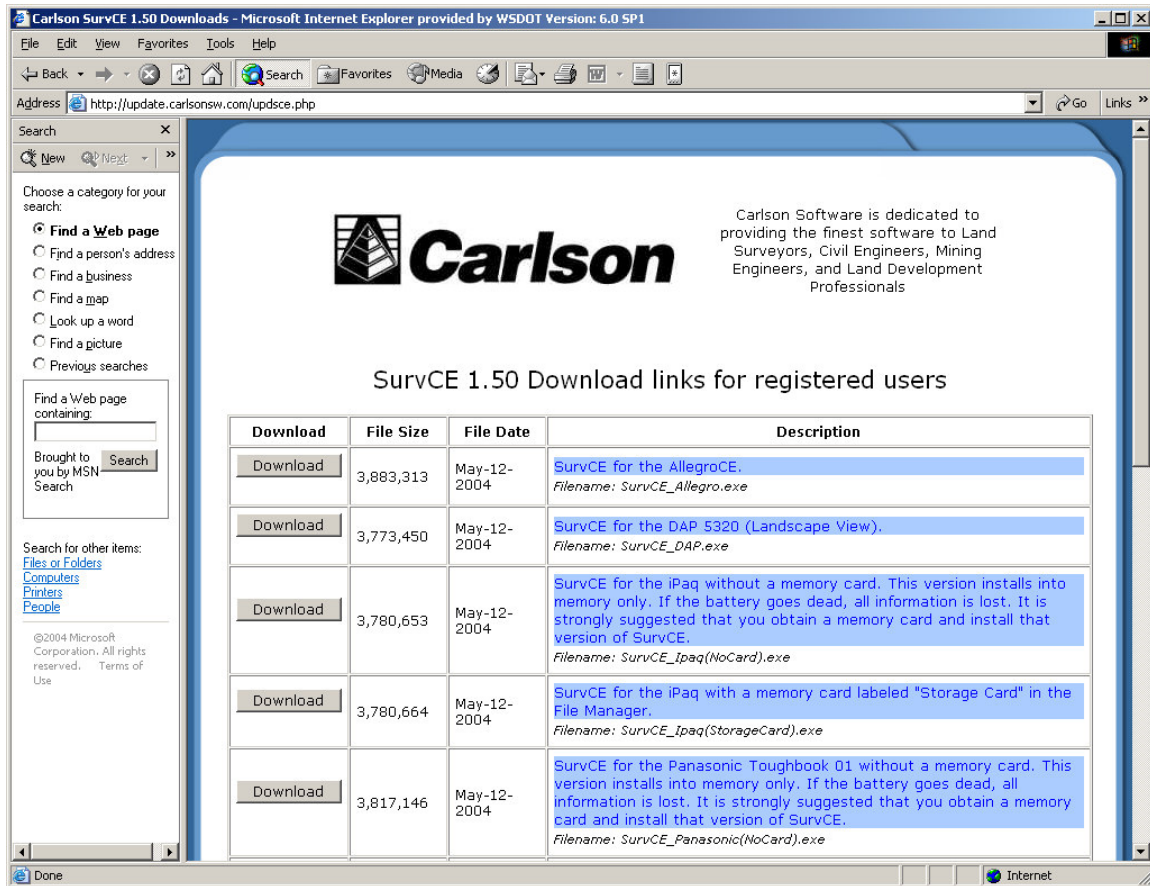

Name: Email:

Notification Preference:

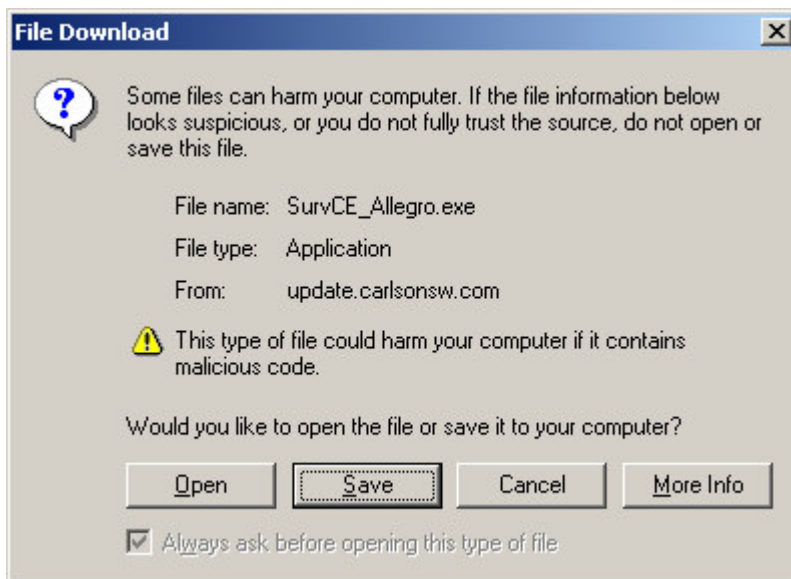

Download	File Size	File Date	Description
<input type="button" value="Download"/>	380,928	Mar-03-2004	Filename: SurvCom.exe
<input type="button" value="Download"/>	8,021,529	Apr-23-2004	Carlson X-Port is a utility for data transfer and traverse adjustment among other things. It is FREE for registered SurvCE users. You may download it here, then call Carlson Software to obtain a serial number. Filename: XPortSetup.exe

At the screen above, enter your 23 digit (including dashes) serial number in the blue, **"Download SurvCE 1.50.001"** box . Typically your serial number is located in the front of your SurvCE Reference Manual. If you haven't registered with Carlson before it will prompt you to do so. After you've registered, re-enter your serial number and hit, **"Download SurvCE 1.50.001."**

How to Update/Download Carlson SurvCE version 1.50.001

At the screen above, you want to click on “**Download**” of the first item, “**SurvCE for the AllegroCE**,” which will bring up the dialog box below. Click “**Save**” to the location you know where it will be. I saved it to my “Desktop” so I could find it easily. The downloaded file is named, “**SurvCE Allegro.exe**.”

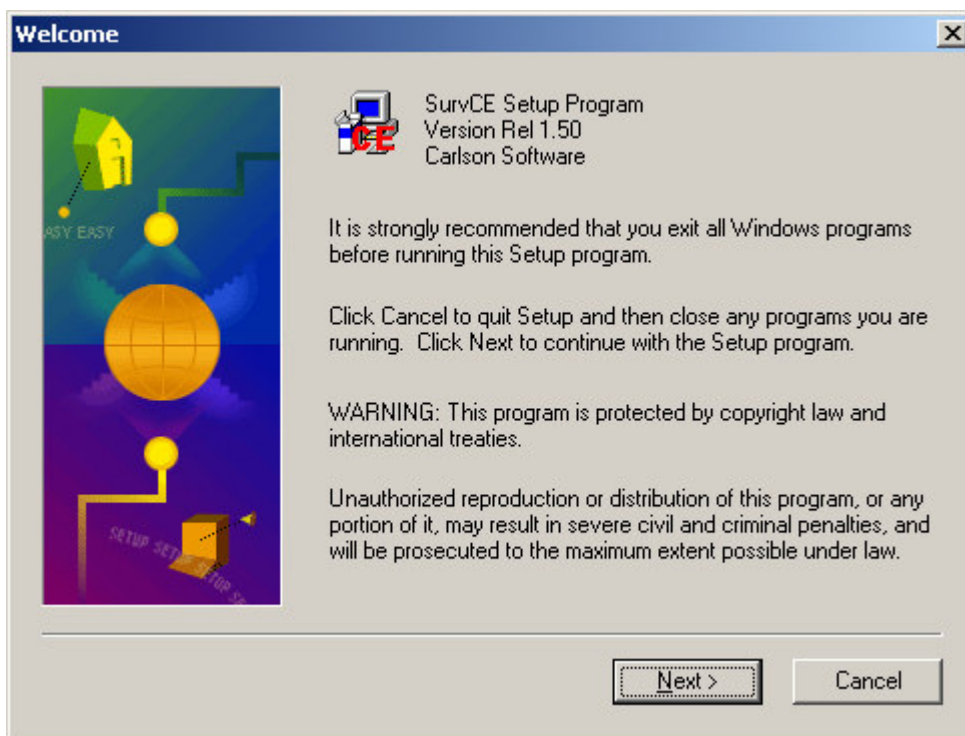

How to Update/Download Carlson SurvCE version 1.50.001

When downloading is finished, close the “Download” dialog box if it hasn’t already.

NOTE:

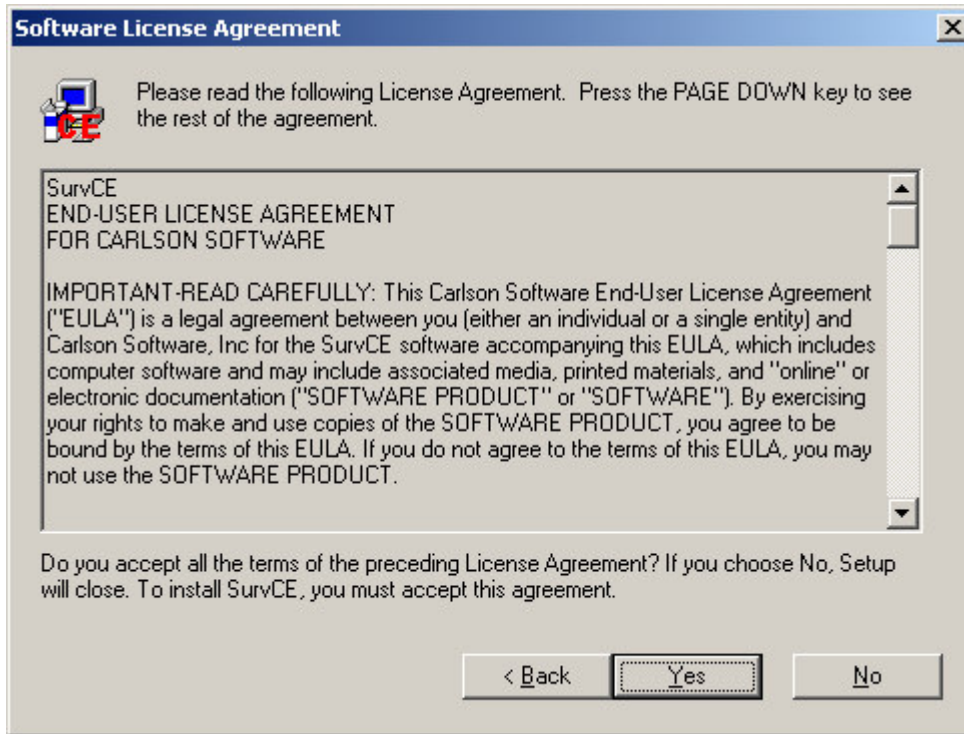

At this point, it’s a good idea to exit all Windows programs before running the SurvCE Setup program. Also, make sure the Data controller is docked in the cradle and that “ActiveSync” is synchronized with the computer. Turn on the data controller but exit out of SurvCE if you are in it. YOU MUST exit SurvCE for the update to work correctly. Just exit to the main Windows screen.

Next, on your computer, go to where you saved the “SurvCE_Allegro.exe.” Double click on it with the left mouse button. It will bring you into the “SurvCE Setup” Menu. Follow the steps.

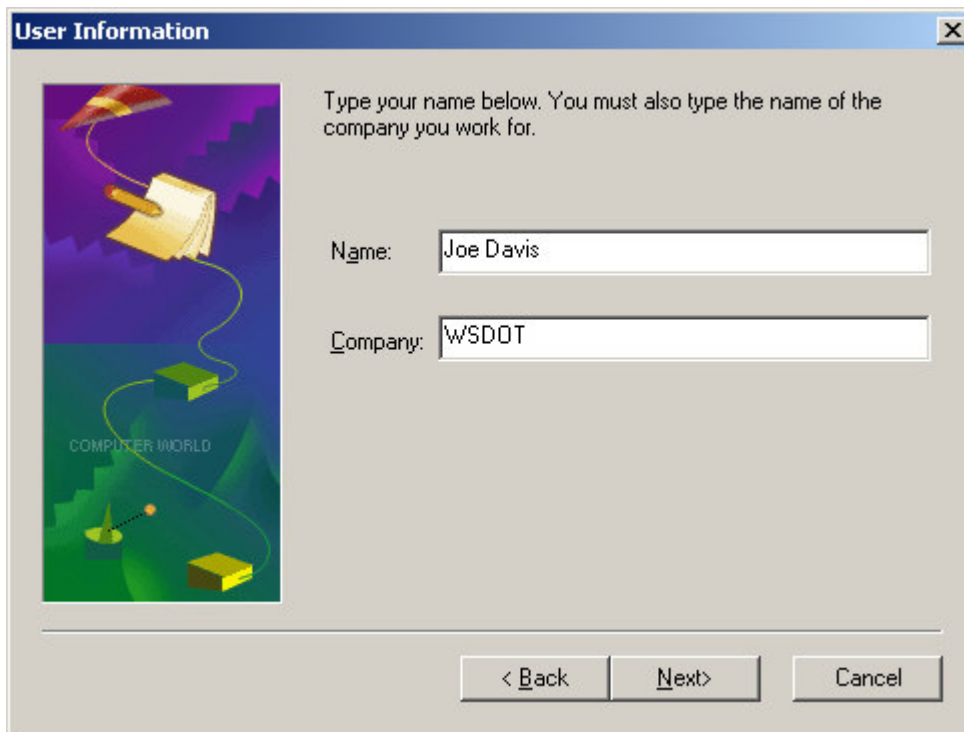

Note the dialog box above – if you need to exit open programs do so as noted. If you already have exited all your windows programs, Click “Next”.

How to Update/Download Carlson SurvCE version 1.50.001

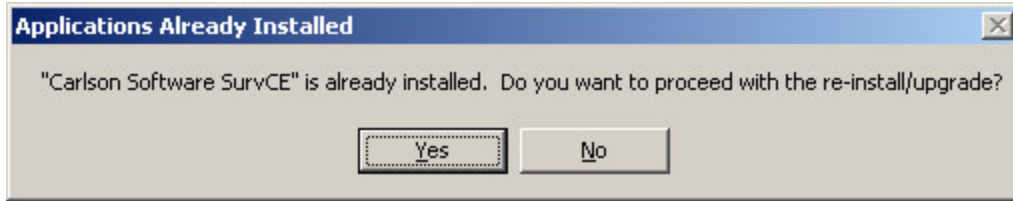

At the dialog box above, click on “Yes” to accept the terms of the license agreement.

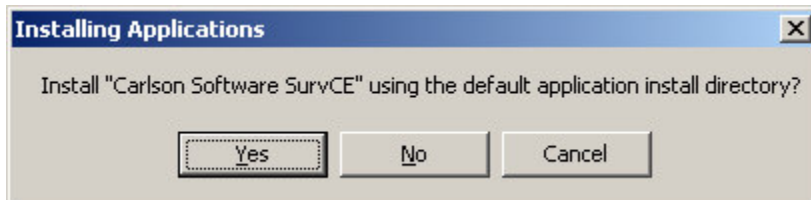

Instead of entering your name, enter WSDOT in both the Name and Company fields. Click “Next”

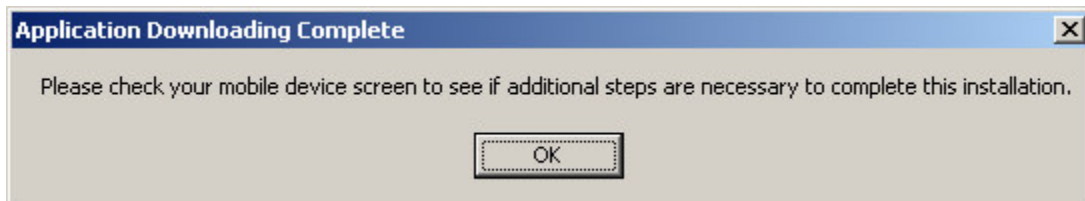

How to Update/Download Carlson SurvCE version 1.50.001

At the dialog box above, click "Yes".

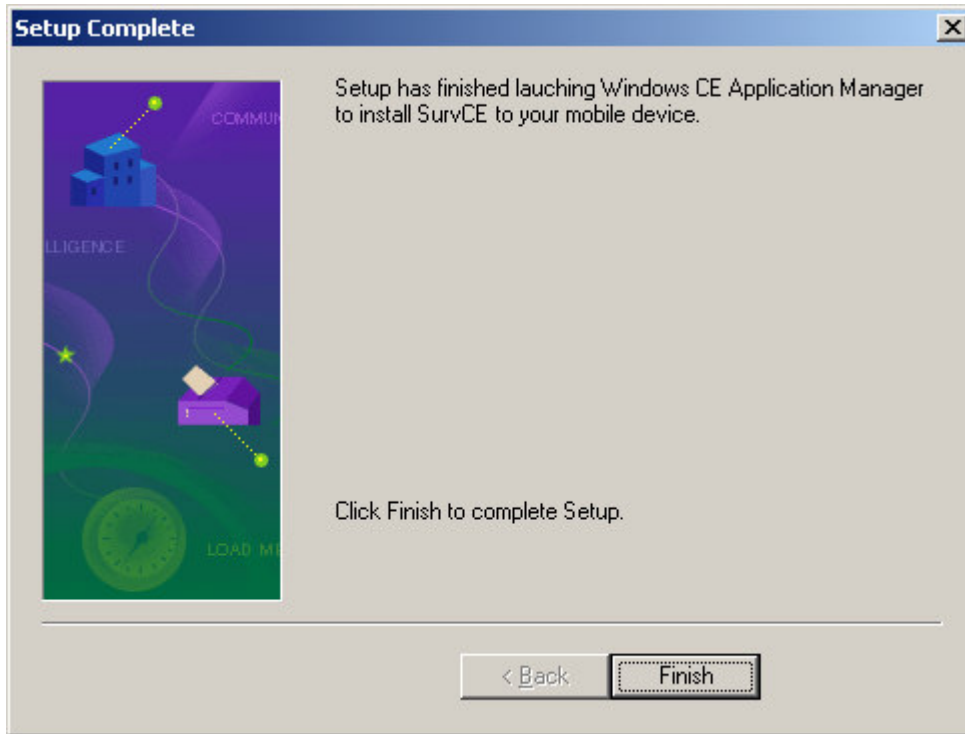

At the dialog box above, click "Yes".

Note the message above, leave the data controller docked and check the note on the controller. It should be a "**Warning**" noting that the software is already installed . If you choose to continue. Click "Yes" on the Data controller. It will remove/install the necessary files into the data controller. Once finished updating SurvCE in the data controller, it will exit out to the Windows Menu screen on the controller.

How to Update/Download Carlson SurvCE version 1.50.001

At the box above, click “**Finish**” . You have completed the update/download of Carlson’s SurvCE 1.50.001.

To double check the controller and make sure 1.50.001 was installed properly do the following;

On the data controller, double click on the SurvCE icon.

Go to the “**Equip**” menu, then number 5, “**About SurvCE**”. The top line should show:
“SurvCE Version 1.50.001 with the date you updated it.

If that is correct the update was completed successfully. If not, try the download again or call Roger Caddell (360) 709-8011 or Joe Davis (360) 709-8018 in the HQ - CAE Survey Support office for assistance.
